Luminator Halide Light

Tough long lasting LED lighting

Ideal for :

Night Construction work
Emergency & Rescue Operations
Mining Operations
Sporting Events
Night Concert Lighting

NEW
Release!!

The Luminator Halide Light is a fully portable 1kW metal halidelighting tower that delivers 100,000 lumens of bright white flood light. The motor driven telescopic mast section allows the user to position the head between 1.5m and 4m

The roto-moduled polyethylene body protects the corrosion resistant aluminium frame to withstand the rigours of hire use.

A compact design enables the Luminator to be transported on wheels, and the light head fully-retracts into the body to protect it during transit.

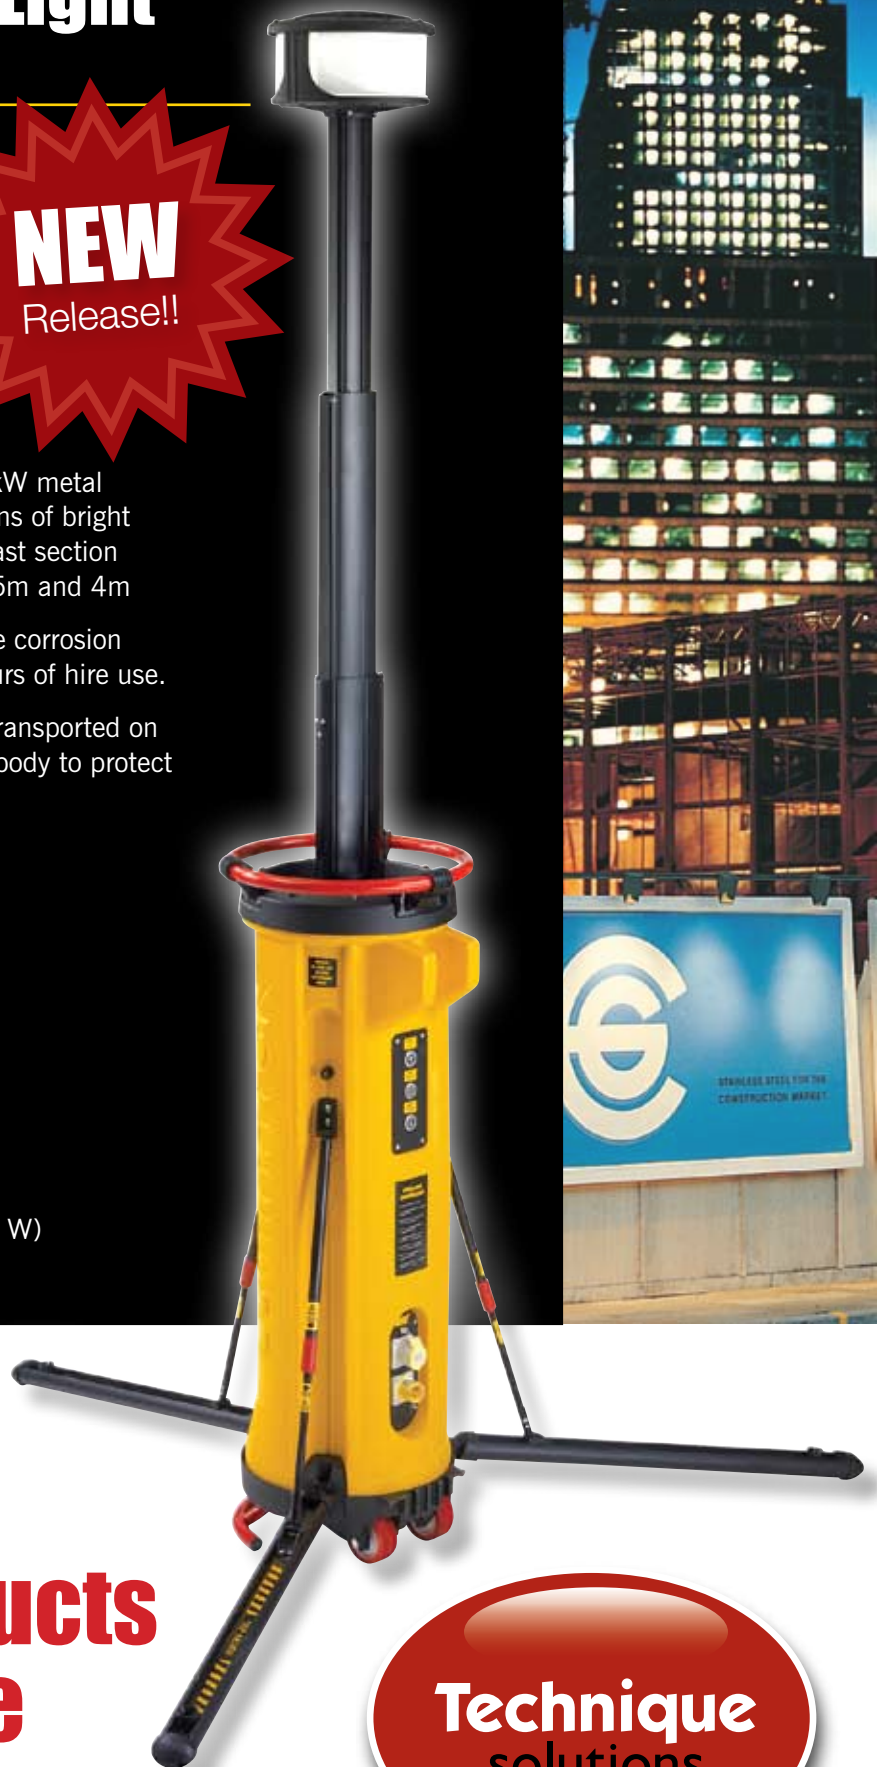

Light output	100,000 Lumens
Lamp	1,000W Metal Halide
Controls	Luminated mast up, down
Voltage	110v AC
Current	9A@110V
Frequency	50/60
Extended Height	1.5m to 4m
IP Rating	IP44
Weight	87kg
Size	1525 x 181mm diamter (H x W)
